American Citizenship Report June 6 1946

I feel that by attending the American Citizenship Conferences I have made a great personal gain. Qo sawk one

I have learned the need of tolerance and that, we as a country, have a grave responsibility for the future. As Douglas Mac Arthur has said " It must be of the spirit, if we are to survive of the flesh."

Incouldn't make a rime of my report as American Citizenship is not a word it is a symbol, but, I do feel like shouting here as I felt after each conference---

In song)

GOD BLESS AMERICANTHE LAND I LOVE

Thank You.
